MESSAGE FROM THE VICE-CHANCELLOR

Prof. Pathmalal M. Manage

I am delighted to extend my warmest welcome to the newly enrolled students of the Faculty of Engineering, one of the most prestigious faculties in our university.

Since its establishment in 2016, the Faculty of Engineering has constantly shown a dedication to achieving high standards, resulting in a reputation for creating highly skilled engineers who make major contributions to society. The university takes pride in the exceptional accomplishments and commitment demonstrated by both the faculty and its students in maintaining the university's academic standards.

The Faculty of Engineering is indeed endowed with exceptional resources, encompassing dedicated staff, modern lab facilities, and a well-equipped library, among other valuable
assets. The Faculty of Engineering takes pride in the presence of highly qualified academic and non-academic staff who relentlessly work towards achieving the university's major goals. Their efforts extend to providing students with a supportive learning environment, ensuring quality education, and addressing individual needs.

As the Vice-Chancellor of the University of Sri Jayewardenepura, I make a passionate welcome to all undergraduate students enrolled in 2024. I strongly encourage you to take full advantage of the resources of the Faculty of Engineering, allowing them to accelerate your study and skill development to new heights. By doing so, you not only advance your development but also bring honor and distinction to our prestigious university.

I wish you all the best of luck in your academic activities at the University of Sri Jayewardenepura. I hope that each student will grow into a world-class engineering professional. Your dedication to academic achievement and skill development will undoubtedly benefit the prosperity and advancement of our university and our nation.

I wish you all a successful academic year.

Senior Professor M. M. Pathmalal
Vice – Chancellor
University of Sri Jayewardenepura

MESSAGE FROM THE DEAN

Dr. Nishan Dharmaweera

I am delighted to extend a warm welcome to all of you as you embark on your journey in the Faculty of Engineering at the University of Sri Jayewardenepura. It gives us great pleasure to inform you that our faculty, which was established in January 2016 as the most recent addition to
the engineering faculties of state-owned universities in Sri Lanka, has effectively produced three batches of graduates who are exceptionally competent and high-quality engineers.

Our primary goal at the university is to produce engineers who are knowledgeable, confident, and innovative, making meaningful contributions to society. The Faculty of Engineering has been recognized not only locally but also internationally for its exceptional curriculum.

I am proud to lead a faculty that encompasses five distinguished departments: civil engineering, computer engineering, electrical and electronics engineering, mechanical engineering, and Interdisciplinary studies. The steadfast assistance and direction offered by these departments are crucial in influencing the bright prospects of our students and upholding the integrity of our educational framework. Our professional academic staff is committed to guiding you through your academic path, not just strengthening your technical skills but also cultivating your academic and personal integrity.

We hope you can succeed in our innovative and approachable teaching and learning environment, which offers a variety of educational facilities, extracurricular activities, and culturally entrenched values.

As Dean of the Faculty of Engineering, I wish each of you a rewarding and meaningful experience. we hope you will contribute significantly to our talented student body. On behalf of the academic, academic support, and non-academic personnel, I wish you a successful and fulfilling tenure at our Faculty. We are excited to guide and support you in attaining your goals.
May your time here be filled with growth, knowledge gain, and skill development, paving the path for a great and successful future.

Dr. Nishan Dharmaweera
Dean of the Faculty of Engineering
University of Sri Jayewardenepura

UNIVERSITY OF SRI JAYEWARDENEPURA

History

The University of Sri Jayewardenepura is one of the oldest Universities in Sri Lanka. The origin of the University of Sri Jayewardenepura dates back to 1873, when Ven. Hikkaduwe Sri Sumangala Nayaka Thero laid the foundation stone for the Vidyodaya (meaning “awakening of knowledge”) Pirivena. Vidyodaya Pirivena was granted University status in 1959, and the name was changed to ‘Vidyodaya University of Ceylon’. In 1961, the University was relocated from Maligakanda to a beautiful setting at Gangodawila, Nugegoda, in the outskirts of Colombo. Later, in 1978, the name of this higher educational institution was changed to ‘University of Sri Jayewardenepura’ and was granted an autonomous University status.

University Today

The University of Sri Jayewardenepura derives its authority from the Universities Act No. 16 of 1978 as amended. As one of the Universities established under the University Grants Commission, the University is empowered to confer degrees on persons who have duly registered to follow a programme of study and have satisfactorily completed all the requirements in conformity with the By-laws of the University as applicable to the Faculty of Engineering.

Vice Chancellor is the Chief Executive and Principal Academic Officer of the University while the Deans of Faculties, Registrar, Librarian and the Bursar are recognized as Officers of the University. The Council, Senate and Faculty Board of each Faculty are recognized as authorities of the University. Council is the governing authority of the University whereas the Senate is the highest academic body. Faculty Boards are responsible for conducting study programmes under the directions of the Senate.

The University of Sri Jayewardenepura consists of eleven Faculties, namely; Faculty of Humanities and Social Sciences, Faculty of Applied Sciences, Faculty of Management Studies and Commerce, Faculty of Medical Sciences, Faculty of Graduate Studies, Faculty of Technology, Faculty of Engineering, Faculty of Allied Health Sciences, Faculty of Dental Sciences, Faculty of Computing and Faculty of Aquatic Bio-resources. The University commits itself for the pursuit and transmission of knowledge through teaching, scholarship, and research. It aims to serve the community through producing well-rounded graduates with creativity, freedom of intellectual thought and expression, and professional growth through nourishing an environment of equal opportunity and fairness.
In addition, University of Sri Jayewardenepura plays an active role in conducting research in areas of national relevance such as Dengue, Cancer, Kidney and Water quality.

All these activities are accomplished with the dedication of academic members and the support extended by the administrative divisions such as academic and non-academic establishment, general administration, finance, examinations, and student welfare.

UNIVERSITY OF SRI JAYEWARDENEPURA

FACULTY OF ENGINEERING

The Faculty of Engineering, University of Sri Jayewardenepura, is the latest addition to the faculties of engineering in the state universities coming under the purview of the university grants commission. Established in January 2016, it consists of five departments of study with a mandate to offer study programmes in engineering, and in particular an undergraduate study programme in engineering leading to the award of the degree of the 'Bachelor of the Science of Engineering'.

The government in its budget speeches of 2014 and 2015, made provisions to establish a faculty of engineering and technology in the university of Sri Jayewardenepura. This is in-line with the national requirement for professionals to drive the country towards a knowledge-based economy. Following the government initiative, the then vice chancellor of the university, senior professor Sampath Amaratunge appointed an advisory board consisting of renowned personalities to proceed with modalities in establishing the new faculty. This advisory board comprised of professors, D.A.Tantrigoda, M.M.Karunanayake, A.M.Abeysekara, K.Deheragoda, P.B.Mandawala and the Emeritus professor N.R.Arthenayake who was a former vice chancellor of the open university of Sri Lanka (OUSL) ,former dean of the faculty of engineering technology of the OUSL and a senior professor in mechanical engineering was appointed as the lead consultant to shoulder the task of establishing the faculty of engineering and technology.

After extensive deliberations with regard to the differences in Technology and Engineering streams as well as the difference in the admission criteria applicable to respective study programmes together with prevailing practicalities, then Vice Chancellor proposed to establish two new Faculties, namely, Faculty of Engineering and Faculty of Technology. This decision was approved by the Senate and the Council of the University. Four Senior Lecturers, namely Dr.S.A.A.M. Subasinghe, Dr.C.de Alwis, Dr. M. Mohomed, and Dr. K.M.C. Konthesingha, were recruited to the proposed Faculty of Engineering to be engaged in the task of developing an Engineering Degree Programme, under the guidance of Professor Arthenayake.

A Consultative Committee in Engineering (CCE) consisting of eminent academics in Engineering Education in the country, together with the representation of the Institution of Engineers, Sri Lanka (IESL) were appointed to spearhead the development of the Engineering Degree Programme. Leading industrialists in the country were consulted to incorporate their inputs to the curriculum development process and the delivery of the Degree programme. This paved the path for the new Faculty of Engineering to build enduring relationships with the industry.

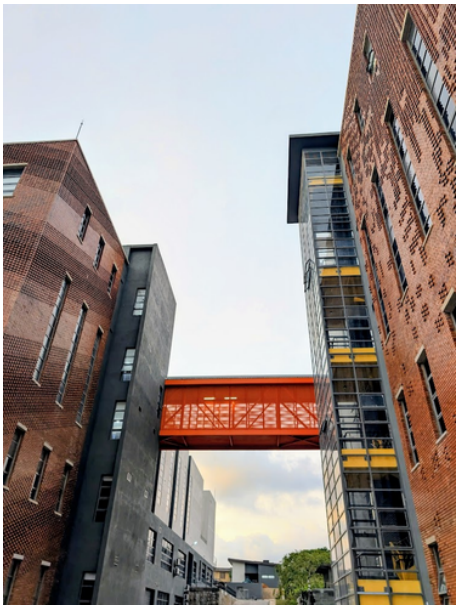
Together with the inputs from the CCE and the Industry, a proposal was formulated to be formally submitted to the University Grants Commission. The University Grants Commission approved the proposal to establish a new Faculty of Engineering at the University of Sri Jayewardenepura in December 2015. The new Faculty along with its Departments of Study, was gazetted by the government in January 2016.

New Faculty Premises

The University of Sri Jayewardenepura acquired a 10-acre land in Mattegoda, Kottawa, for the establishment of the Faculty of Engineering on the 31st of July 2017. The acquired land is located very close to the buzzing and growing city center of Kottawa, which makes it easily accessible through the Southern Highway as well as a multitude of road networks. The land allocation was supported through the 2019 National Budget, with an investment of Rs. 1 billion. This was a momentous occasion for the faculty, which is the youngest state-owned Engineering Faculty in Sri Lanka.

Since the groundbreaking ceremony of the proposed Faculty of Engineering building complex was held on 31st December 2020, a major milestone in the faculty's journey is its relocation to a state-of-the-art permanent complex in Kottawa (Mattegoda). The new complex has been designed to accommodate up to 1,600 students and to provide an exceptional learning environment that supports academic excellence, innovation, and student well-being.

Equipped with cutting-edge technology and advanced infrastructure, the new faculty complex features modern modular laboratories that facilitate hands-on experimentation, innovation, and research. A fully equipped 800-seat auditorium serves as a central venue for academic events, conferences, ceremonies, and student showcases. To ensure student and staff well-being and convenience, the premises also include a spacious food court, recreational facilities such as a badminton court and gymnasium, and a dedicated daycare centre, enhancing accessibility and inclusivity for staff and students with families.



Beyond the Classroom: A Holistic Campus Life

What sets this facility apart, however, is its attention to the human element of engineering. Recognizing that innovation requires well-being, the designers have integrated features rarely seen in state university faculties.

Details from the faculty's profile reveal a campus built for life, not just study. The new Engineering Faculty Library has been transformed into a vibrant hub with self-check kiosks and security gates, designed to make resources instantly accessible. It offers spacious reading areas and relaxing leisure spaces, a deliberate move to foster collaborative learning over rote memorization.

The student experience is further bolstered by dedicated recreational facilities, an E-learning and language center, a career guidance unit, and an industrial training unit. The complex includes an indoor sports complex and a fully equipped gymnasium, ensuring students can balance the rigors of engineering with physical health. An open-air amphitheater provides a space for cultural events, while a modern food court and multiple canteens offer high-quality amenities for social interaction. The addition of a dedicated daycare center, alongside a health center and pharmacy, underscores the faculty's commitment to supporting the diverse needs of its community, particularly those with families. Accessibility is a key priority, with the premises offering substantial parking capacity to ensure hassle-free access for the university community.

The four Departments are responsible for delivery of the Study Programme in four specialisations in engineering as “Civil Engineering”, “Computer Engineering”, “Electrical and Electronic Engineering”, and “Mechanical Engineering”. The Department of Interdisciplinary Studies functions as a service department and is responsible for the delivery of courses in Engineering Mathematics, Management, and Humanities.

The Departments of Study in the Faculty and their abbreviations are as follows:

Civil Engineering	CE
Computer Engineering	CO
Electrical and Electronic Engineering	EE
Mechanical Engineering	ME
Interdisciplinary Studies	IS

Inaugural batch of students of the Faculty was enrolled in November 2016, which was followed by eight subsequent batches from 2017 to 2024.

Research and Innovation

The Faculty of Engineering is deeply committed to research, innovation, and industry collaboration. With a clear vision of becoming a Future Engineering Research Hub, the faculty fosters practice-oriented research and encourages students to develop real-world solutions to contemporary engineering and societal challenges. Under the guidance of a dedicated and dynamic academic staff, students actively participate in national and international competitions and have already secured multiple awards, an impressive achievement for the youngest state-owned engineering faculty in the country.

The Faculty is initiating collaborations with industry to produce young Engineers to fit the contemporary needs of the Engineering sector of the country, which is essential for continuing national development. Research Committee of the Faculty of Engineering (RCFE) has been established to facilitate research and innovation activities. The faculty currently has students following Mphil and PhD degrees related to the specialisations of all four academic departments.

Quality Assurance

The Faculty actively takes measures to improve the academic standards to align with international quality standards. This process is facilitated by the Internal Quality Assurance Cell (IQAC) of the Faculty.
IQAC is responsible for carrying out and coordinating quality assurance activities of the Faculty in line with national and international standards for an engineering degree program, namely the Sri Lanka Qualification Framework (SLQF) and the Washington Accord of the International Engineering Alliance, for which the IESL is the authorized organization for the accreditation.

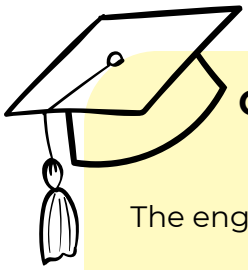
IESL Recognition

All the degree programs offered by the Faculty of Engineering, University of Sri Jayewardenepura have obtained the IESL recognition; Civil Engineering and Mechanical Engineering departments are fully recognized, and working towards obtaining the IESL accreditation.

STUDY PROGRAM

Faculty of Engineering offers a study programme leading to the award of the degree of the 'Bachelor of the Science of Engineering Honours', in four specialisations in Engineering.

The mission of the study programme is to produce engineering graduates who have the knowledge and the aspiration to become competent engineers in a wide range of emerging engineering disciplines within the conventional engineering spheres, by offering a curriculum with flexibility to meet the current and emerging needs of the country and the profession, as acceptable to the global community.



Graduate Profile

The engineering graduates of the Faculty of Engineering would be able to;

- Investigate, identify, formulate and analyse complex engineering problems with creativity and innovative approach,
- Apply the principles of engineering, science, technology and mathematics in the design of systems, processes and procedures as solutions to complex engineering problems, along with applying intellectual and life skills within realistic constraints (economic, environmental, social, political, ethical, health and safety) and sustainability through creative and innovative approach,
- Recognize the importance of working as an individual, in teams as well as in multi-disciplinary settings, depending on specific situations in solving complex engineering problems and act accordingly, while maintaining high ethical standards in the practice of engineering,
- Engage in lifelong learning for continuous professional development and uphold the advancement of engineering with research and scholarship.

Program outcomes

- Apply knowledge of mathematics, basic sciences and engineering fundamentals to the analysis of complex engineering problems.
- Identify, formulate, research literature, conduct investigations and solve complex engineering problems to provide valid conclusions.
- Design systems, components or processes that meet specified needs.
- Conduct investigations of complex problems using research based knowledge and research methods.
- Create, select and apply appropriate techniques, resources, and modern engineering and IT tools to complex engineering activities.
- Assess societal, health, safety, legal, cultural and environmental issues related to professional engineering solutions.
- Demonstrate broad knowledge of sustainable development concepts and practices required for dealing with contemporary issues related to professional engineering practice.
- Demonstrate broad knowledge of ethical responsibilities and professional standards.
- Demonstrate ability to function effectively as an individual and in multidisciplinary and multi cultural teams, with the capacity to be a leader or manager as well as an effective team member.
- Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- Demonstrate broad knowledge of management and business practices, including financial management, risk and change management.
- Engage in independent and lifelong learning in the broad context of technological change.

Terminology

The following terminology are in frequent use within the Study Programme. Students are requested to be familiar with them.

In addition, please note that this section is intended to provide with a brief understanding of the important terminology only. For comprehensive understanding of the information provided, students are advised to refer to relevant By-Laws, Rules and Regulations of University of Sri Jayewardenepura.

Academic Year

An Academic Year comprises of two teaching semesters followed by a period allocated for vacation, industrial training and any other academic activities, as applicable to the Faculty of Engineering. Academic Year does not necessarily coincide with the normal calendar year. The Programme of Study spans over four Academic Years or eight Semesters.

Semester

A Semester consists of 20 weeks including time allocated for teaching, examinations as well as mid-semester and end-semester vacations.

Course

A 'Course' is the basic teaching/learning unit (equivalent of a 'Subject') and includes lectures and other academic activities.

Course Code

It is a unique combination of alpha-numeric characters that would identify a particular Course. Courses are coded using the Academic Year in order to enable the Faculty to offer a particular Course in either of the two Semesters in the given Academic Year. Information can be derived from the code of a Course as described by the example below.

ME1301 Engineering Mechanics

First two characters:	*Abbreviation of the Department of Study responsible for administering the Course [Department of Mechanical Engineering]*
Third character:	*Academic Year [First Academic Year]*
Fourth character:	*Academic Credits [Three Academic Credits]*
Last two characters:	*Serial Number of the Course*

First Year Common Curriculum

All students will follow a Common Curriculum during the first Academic Year (first and second Semesters) of study.

Workload of a Course

Workload of a Course is expressed in terms of 'Hours/Week' and presented as Lectures, Practical Work, Tutorials, etc.

Academic Credits

Academic Credits (AC) is a measure of the academic workload of a 'Course'. Computation of Academic Credits for a Course is based on "Active Hours (AH)", which is defined according to the requirements stated in the Accreditation Manual of the IESL.

1 hour of lectures	= 1.0 AH
1 hour of lab work	= 0.5 AH
1 hour of tutorials	= 0.5 AH
1 hour of design or field work	= 0.5 AH

$$\text{AC} = \frac{\text{NUMBER OF ACTIVE HOURS}}{\text{14}}$$

For activities in which contact hours cannot be properly identified, 1 AC is defined as follows (without considering AH).

1 week of project work	=	1 AC
2 weeks of work camps	=	1 AC
4 weeks of industrial training.	=	1 AC

Continuous Assessment

Continuous Assessment(CA) has been introduced for every Course in order to maintain the motivation in the learning process as well as to guide the student towards achieving the learning outcomes. This consists of components such as mid semester examinations, practical work, fieldwork, assignments, quizzes, and mini projects, which evaluate the performance of a student throughout the semester. Components of CA vary from Course to Course depending on the nature of the Course. The aggregate mark derived from different components of CA is referred to as the Continuous Assessment Mark (CA Mark).

End of Semester Examination

End of Semester Examination (ESE) is the final assessment component of a Course , which is conducted at the end of each semester.

Overall Assessment Mark

Overall Assessment Mark (OA Mark) is computed by combining both the CA Mark and the ESE Mark according to a pre-defined relationship, which may differ from Course to Course. The OA Mark determines the academic standing of the student in the Course.

Compulsory Course Requirements

Compulsory Course Requirements (CCR), if any, need to be satisfied in order to sit the ESE of the Course. These requirements may include successfully completing the prescribed CA components, attendance at lectures, etc. This information will be made available to the students prior to the commencement of academic activities.

Re-sitting the ESE of a Course

A student is required to re-sit the ESE without following the Course in full if,

a. CA Mark is above the pass mark, and
b. OA Mark is below the pass mark.

In such cases, the CA Mark may be brought forward while the best grade obtainable by the student is limited to 'C'.

Repeating a Course

A student has to repeat a Course if,

a. both the CA Mark and the OA Mark are below the pass mark, or
b. CCR is not satisfied, hence not permitted to sit the ESE.

In this case, the student has to follow the Course in full. This implies that the student must satisfy the CCR and successfully complete the CA Component and the ESE. The best grade obtainable by repeating a Course is limited to 'C'.

Academic Concession

A student is permitted to postpone academic activities of a Course for a valid reason, subject to the approval of the Faculty Board and the Senate. Such permission, if granted, is known as an Academic Concession. A student who has been granted an Academic Concession is required to fulfil the requirements of the Course, as applicable, in the subsequent academic year.

Learning Management System

A Learning Management System (LMS) is a software application used to facilitate e-learning in the delivery of the Courses.

Fields of Specialization

Selection of students to one of the four fields of specialization will take place at the end of the second semester. The selection process is strictly based on the preference and performance of the students during the first two semesters.

Minor

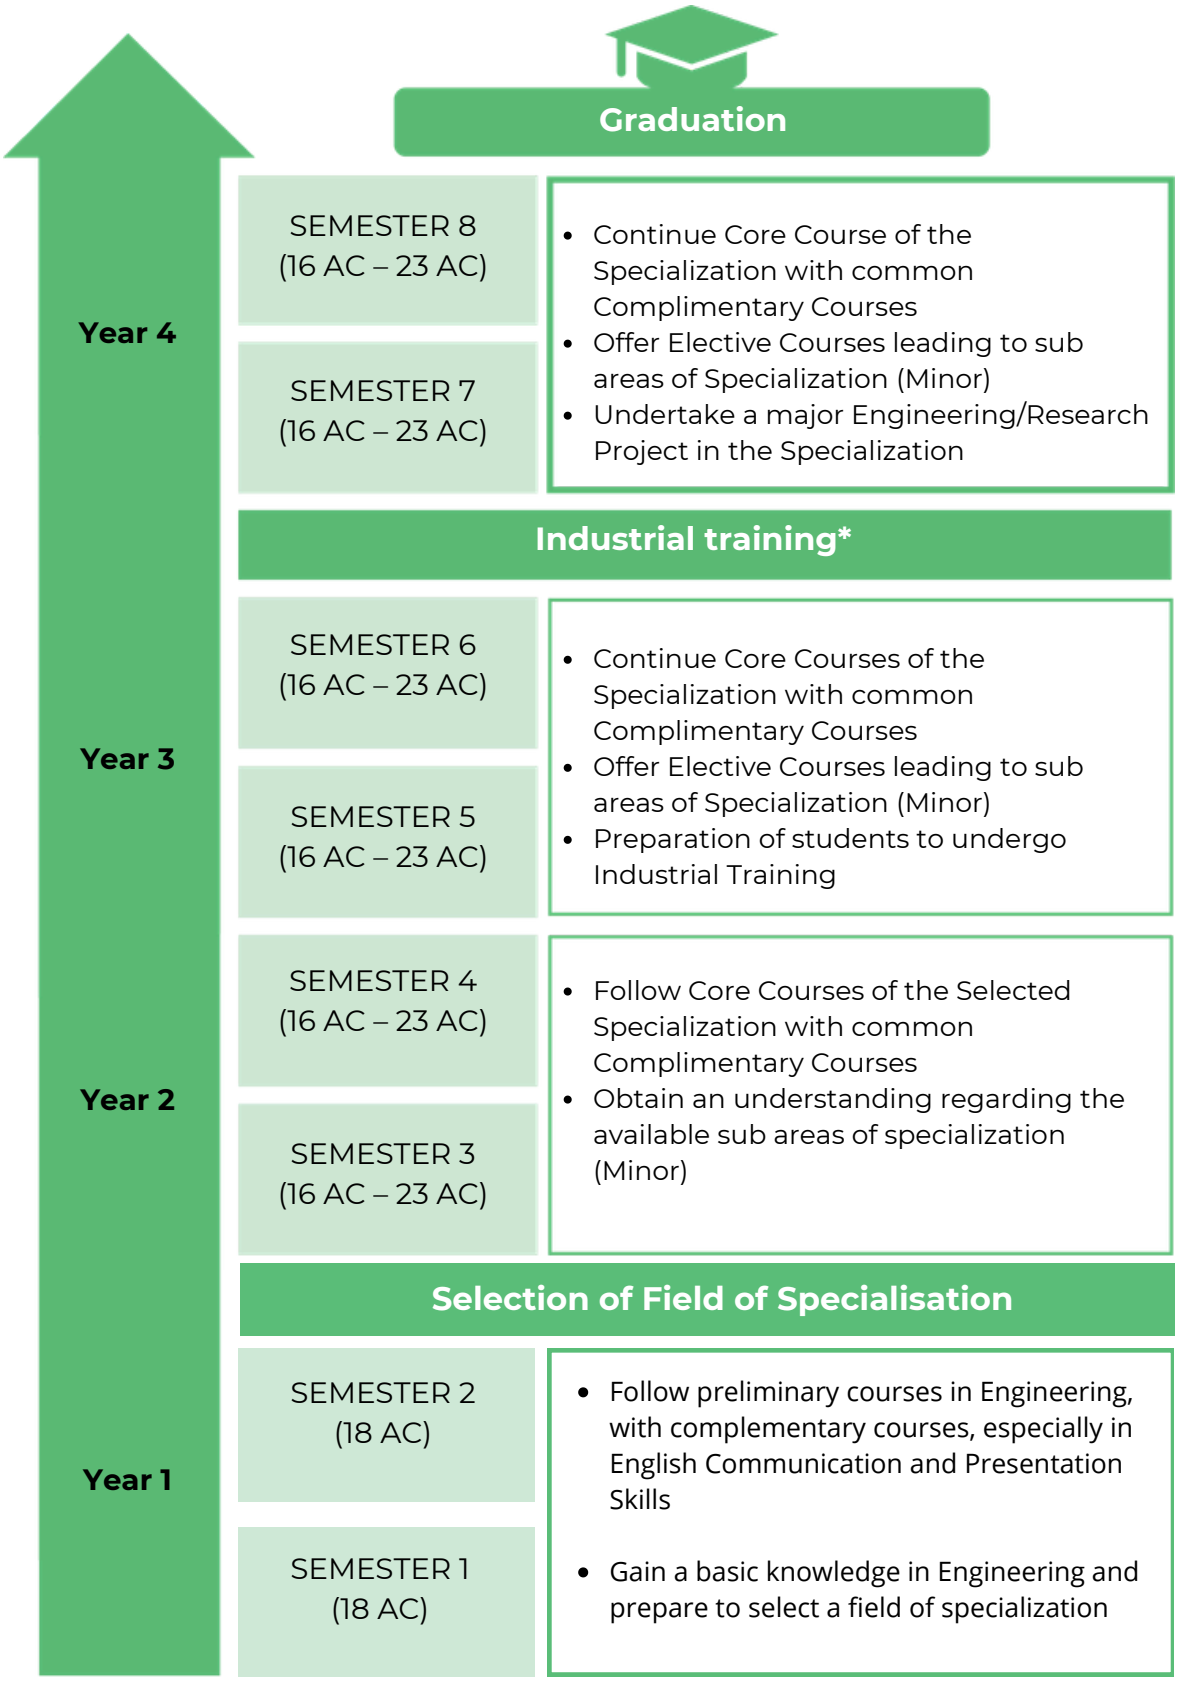
A student has the option to claim for a 'Minor' relevant to his field of specialization after successfully completing an approved combination of Courses. Students will be made aware of such Courses in advance. Minors on offer include emerging fields of Engineering such as 'Biomedical Engineering', 'Building Services Engineering', 'Environmental Engineering', 'Mechatronics Engineering' and 'Data Management', and may vary from time to time, as determined by the Faculty Board.

Industrial Training

Industrial Training, which is compulsory, is an integral component of the degree programme. The total duration of training is not less than twenty four weeks to comply with accreditation requirements of the IESL. At present, the training is implemented after the conclusion of the ESE of Semester 6.

Framework of the Study Program

The upward mobility of a student after gaining admission to the Faculty is depicted in the following diagram.



*Industrial training period of 24 weeks

Enrolment for Courses

Each student is required to enrol for all Compulsory, Elective and Optional Courses he/she intends to follow, prior to the commencement of a given Semester. The student has the option to 'Add' or 'Drop' elective and optional Courses within a period of 14 days from the beginning of the semester. Elective Courses should be selected as stipulated by the Faculty Board. In the selection of Courses, the students are required to ensure that he/she has fulfilled the necessary prerequisite requirements to enroll for a Course.

National and International Standards

The curriculum of the Study Programme meets both national and international standards for engineering education.
Nationally, the Curriculum has been drawn-up in keeping with the requirements of the Sri Lanka Qualification Framework (SLQF) and the IESL, which is the apex body for the Engineering Profession in Sri Lanka. In addition, the curriculum has been designed in compliance with the international standard for an Engineering Degree Programme, namely the Washington Accord of the International Engineering Alliance.

Assessment Criteria

Assessment of a Course

Assessment in respect of each Course consists of CA and ESE. Contribution from various CA components to the final CA mark as well as the contribution to the final grade from CA and ESE may vary from Course to Course. This information will be made available to the students prior to the commencement of academic activities.

Requirements to sit the End of Semester Examination

In order for a student to sit the ESE in a Course, he/she should have satisfied the Compulsory Course Requirements (CCR) in that Course.

Grading the Performance in a Course

Grade assigned to a student for a Course is based on the Overall Assessment Mark. This information together with relevant Grade Point Values (GPV) are as given in the table below.

Grade	Grade Point Value(GPV)	Implication
A+	4.00	Outstanding
A	4.00	Excellent
A-	3.70	
B+	3.30	Good
B	3.00	
B-	2.70	
C+	2.30	Satisfactory
C	2.00	
R	Not Applicable	Referred and Re-sit the ESE
F		Failed and Repeat Course
L		Resume academic activities in the subsequent Academic year

Any grade 'C' and above (GPV ≥ 2.0) is considered as a Pass grade.
Student Re- sitting ESE or repeating a course cannot secure a grade greater than 'C'

Grade Point Average (GPA)

A student's Grade Point Average (GPA) is computed considering the GPVs of all the Courses categorised as 'Contributing to GPA'.

$$\text{GPA} = \frac{\sum \{(\text{ACADEMIC CREDITS OF THE COURSE}) \times (\text{GPV OF THE COURSE})\}}{\sum (\text{ACADEMIC CREDITS OF THE COURSE})}$$

Semester Grade Point Average (SGPA):	SGPA calculated considering all Courses, marked as 'Contributing to GPA', followed by a student during a given semester.
Cumulative Grade Point Average (CGPA):	GPA calculated considering all Courses, marked as 'Contributing to GPA', followed by a student up to a given Academic Semester.
Overall Grade Point Average (OGPA):	OGPA is also referred to as 'GPA', and is calculated considering all Courses, marked as 'Contributing to GPA', followed by a student during the entire degree programme. GPA will be used in deciding the award of a 'Pass' degree and the 'Class Honors', as applicable.

Progression Requirement

As stipulated in the By Law with the amendments

Dean's List

A student who achieves an SGPA of 3.80 or higher, after successfully completing all Courses prescribed for the purpose of determining the Dean's list for a semester and have no act of indiscipline committed by him, will be recommended by the Board of Examiners to be included in the Dean's List. Such an achievement will be recorded in the Student's Academic Transcript.

Graduation Requirements

Requirement for the Award of the Degree

In order for the award of the degree of the Bachelor of the Science of Engineering,
a student has to fulfil the following requirements.

1. Obtained pass grades for the Faculty approved combination of Courses accounting for a minimum total of 144 Academic Credits, and
2. Successfully completed Industrial Training Course accounting for 6 Academic Credits, and
3. Satisfied the above requirements within a period of not more than eight academic years.

Requirement for Award of Class Honours

A student will be awarded the degree with Pass or Class Honours according to Grade Point Average as given below.

3.00 > GPA ≥ 2.00 Pass
3.30 > GPA ≥ 3.00 Second Class Honours (Lower Division)
3.70 > GPA ≥ 3.30 Second Class Honours (Upper Division)
GPA ≥ 3.70 First Class Honours

However, a student is entitled for the award of Class Honours only if he/she has successfully completed the above requirements within the minimum stipulated time of five Academic Years.

Faculty approved Course combinations are given in the 'Departments and the Curriculum' section.

Academic Awards

Faculty Awards

- **Most Venerable Balangoda Ananda Maitreya Gold Medal** for the Most Outstanding Graduand of the Faculty of Engineering awarded to the best performing student of Bachelor of the Science of Engineering Honours Degree program.

Qualification Criteria

In order to qualify for the gold medal, the graduate should satisfy the below criteria,

- Successfully completed the Degree Program within four academic years.
- Has obtained an Overall Grade Point Average of 3.80 or above.
- Has not repeated in any of the Compulsory and Elective courses.
- Has no disciplinary action against the student.

Selection Criteria

1. The student with the highest OGPA who has fulfilled the above qualification criteria will be selected as the awardee.
2. If there are multiple qualifying candidates with same OGPA, the candidate with highest number of 'Outstanding' grades (A+), will be selected as the awardee.
3. If there are multiple qualifying candidates with same OGPA, and a same number of 'Outstanding' grades (A+), the candidate who has the highest average mark for all compulsory and elective courses would be selected as the awardee.

Departmental Awards

- **Gold Medal for Civil Engineering** endowed by the well-wishing academics of the department and awarded to the most outstanding Graduand of the Department of Civil Engineering.
- **Gold Medal for Computer Engineering** endowed by the well-wishing academics of the department and awarded to the Best Graduand of the Department of Computer Engineering.
- **Gold Medal for Electrical & Electronic Engineering** endowed by the well-wishing academics of the department and awarded to the Best Graduand in the Department of Electrical & Electronic Engineering.
- **Gold Medal for Mechanical Engineering** endowed by Emeritus Professor Ranjith Arthanayake and awarded to the most outstanding Graduand of the Department of Mechanical Engineering.
- **Gold Medal by the Department of Interdisciplinary Studies** will be awarded to the engineering Graduand who successfully completes the Bachelor of the Science of Engineering Honours degree with a First Class or a Second Class (Upper Division) pass with the most outstanding performance in courses offered by the Department of Interdisciplinary Studies at the Faculty of Engineering, University of Sri Jayewardenepura.

*For more details about Departmental Awards refer to page 86

DEPARTMENTS AND CURRICULUMS

With the aim of producing knowledgeable, competent, confident, and innovative engineering graduates, the curriculum offered at the Faculty of Engineering of the University of Sri Jayewardenepura has been carefully designed by distinguished academics and industry partners to comply with the international standard for engineering programmes, namely the Washington Accord of the International Engineering Alliance.

During the first year of the degree programme, every student should follow a common curriculum to acquire basic knowledge in engineering and be prepared to select a suitable field of specialization at the end of the first semester. In the subsequent semesters, students should follow compulsory courses of the selected specialization.

Additionally, the students continue to follow courses in Mathematics, English, and complementary interdisciplinary study areas, and will undergo Industrial Training that aligns with their specialized field of study. Students will also have the opportunity to obtain a minor within their specialized stream by taking elective courses in respective streams in the third and fourth years of the degree programme. Further, in the fourth year (the final two semesters), students will undertake a major engineering/research project in their field of specialization.

First Year Common Curriculum

The common curriculum consists of preliminary courses in Engineering, Mathematics, History, and English communication and presentation skills.

Semester 1				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE1201	Properties of Materials	2	Compulsory	Yes
CO1201	Introduction to Computer Systems	2	Compulsory	Yes
EE1201	Electricity	2	Compulsory	Yes
ME1301	Engineering Mechanics	3	Compulsory	Yes
ME1202	Introduction to Thermodynamics	2	Compulsory	Yes
IS1301	Engineering Mathematics I	3	Compulsory	Yes
IS1151	English for Communication	1	Compulsory	No
IS1171	History of Science and Technology	1	Compulsory	No
IS1281	Engineering Measurement	2	Compulsory	Yes

Semester 2				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE1202	Introduction to Fluid Mechanics	2	Compulsory	Yes
CO1302	Programming for Engineers	3	Compulsory	Yes
EE1302	Electronics	3	Compulsory	Yes
ME1303	Basic Manufacturing Processes	3	Compulsory	Yes
ME1304	Engineering Drawing	3	Compulsory	Yes
IS1302	Engineering Mathematics II	3	Compulsory	Yes
IS1152	Presentation Skills in English	1	Compulsory	No

At the end of the first semester, selection of students to the four fields of specialization will take place. The selection process is strictly based on the preference and performance of the students during the first semester.

The following four fields of specialization are offered by the respective departments.

Civil Engineering
Computer Engineering
Electrical and Electronic Engineering
Mechanical Engineering

Course Selection in Subsequent Years

- Once a student has been assigned a field of specialization by the Faculty, he/she is required to take all compulsory courses as stated in the curriculum of the relevant department.
- In addition, the student is required to take elective courses from each basket of Elective Courses, such that the minimum stipulated credit requirement is satisfied.
- Elective Courses on offer may vary from time to time, as determined by the Faculty Board.
- Optional Courses taken by a student will be indicated in the academic transcript upon request.

Testometric
M350-10CT

DEPARTMENT OF CIVIL ENGINEERING

Civil Engineering specializes in a broad spectrum of engineering aspects, including envisioning, planning, designing and construction of buildings, highways and bridges, reservoirs, dams and irrigation schemes, power houses and transmission systems, water supply and sewerage schemes, tunnels and underground structures, and so on. The graduates can choose from a wide range of opportunities in industry and consulting practices as well as in research and development, which has both local and global significance. They also would have the option of pursuing an academic career combined with research, innovation, and development work among local and international research communities.

Amongst its many courses, the Department of Civil Engineering offers subjects that cover the key specialization areas in Civil Engineering, such as Structural, Geotechnical, Transportation and Highways, Hydraulics, and Environmental Engineering, while bestowing an in-depth knowledge in Sustainable Designs, Construction Technology, and management as well as Surveying. These streams are taught in an intertwined manner so that the students gain a thorough grounding of the diverse subject areas and their cross-applicability, which would enable them to be competent and innovative engineers in whichever specialized area they engage in the future as Civil Engineering professionals.

Academic Staff

Dr. Praween Madusanka

B.Sc.Eng.(Hons) (UOP)
M.Eng. (Hokkaido, Japan)
Ph.D. (Hokkaido, Japan)

Head/Senior Lecturer
praweenmadusanka@sjp.ac.lk

Research interests:
Solid Waste Management, Water, Wastewater and Septage Treatment

Prof. Chaminda Konthesingha

B.Sc.Eng.(Hons) (UOM)
M.Sc. (UOM)
Ph.D. (Newcastle)

Professor
konthesingha@sjp.ac.lk

Research interests:
Structural Masonry, Lightweight Concrete, Fire Safety of Buildings, Retrofitting and Strengthening of Masonry

Prof. Ganga Samarasekara

B.Sc.Eng.(Hons) (UOM)
M.Eng. (Saitama)
Ph.D. (Saitama)

Professor
gangas@sjp.ac.lk

Research interests:
walkability in Street Network, Green Boundary Walls & Vehicle Emissions, Traffic Calming, Engineering Education

Dr. Nilan Weerakoon

B.Sc.Eng.(Hons) (UOP)
M.Eng. (Hokkaido, Japan)
Ph.D. (Hokkaido, Japan)

Senior Lecturer
weerakoon@sjp.ac.lk

Research interests:
Solidification of Soils, Rheological Properties of Soils, Peat Soils, Ground Improvement, Slope Stability

Dr. Irindu Upasiri

B.Sc.Eng.(Hons) (UOP)
Ph.D. (USJ)

Senior Lecturer
irinduupasiri@sjp.ac.lk

Research interests:
Structural Fire performance; Lightweight Concrete & Finite element modelling

Mr. Wasantha Kumara

B.Sc.Eng.(Hons) (UOM)
M.B.A in PM (UOM)
Ph.D. (Reading) (USJ)

Lecturer
pmwpkumara@sjp.ac.lk

Research interests:
Construction Materials, Applicability of Modern Project Management Methods for Construction Projects

Mr. Avishka Siriwardana

B.Sc.Eng.(Hons) (KDU)
Ph.D. (Reading) (UOM)

Lecturer
avishkasiriwardana@sjp.ac.lk

Research interests:
sustainable water distribution systems & water safety approaches

Ms. Dilini Dissanayake

B.Sc.Eng.(Hons) (USJ)
Ph.D (Reading) (USJ)

Lecturer
dilinidissanayake@sjp.ac.lk

Research interests:
Finite Element modelling, Fire performance, Cracking and Durability of masonry structures

Mrs. Kobika Mathushan

B.Sc.Eng.(Hons) (UOJ)
MSustBltEnv Reading (UOP)
Ph.D. Reading (USJ)

Lecturer
kobithaya@sjp.ac.lk

Research interests:
Construction Materials, Sustainable Construction Practices, Fire Safety of buildings, and Green Buildings

Mr. Chathura Amarasinghe

B.Sc.Eng.(Hons) (USJ)
M.Sc. (Reading) (UOP)

Lecturer
chathuraamarasinghe@sjp.ac.lk

Research interests:
Geo transportation, Slope stability

Academic Support Staff

Ms. R.A.I. Devindi - Temporary Demonstrator
Ms. I.L. Roshilda - Temporary Demonstrator
Ms. M.D.P.I. Jayasena - Temporary Demonstrator
Mr. R.Anushan - Temporary Demonstrator
Mr. T.M.D.P. Thennakoon - Temporary Demonstrator
Ms. B.H.M.K. Herath- Temporary Demonstrator

Non-academic Staff

Ms. Diska Madushani - Technical Officer
Mr. Darshana Sandaruwan Adikari - Technical Officer
Ms. Erandi Kalanika - Technical Officer
Mr. L.N. Kumarasekara - Management Assistant
Ms. Koshila Soysa - Lab Attendant
Mr. K.A. Anuruddha - Lab Attendant
Mr. Ruwan Herath - Works Aid

Curriculum of Civil Engineering

Semester 3				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE2301	Structural Mechanics	3	Compulsory	Yes
CE2302	Fluid Mechanics	3	Compulsory	Yes
CE2203	Building Design Process	2	Compulsory	Yes
CE2304	Surveying I	3	Compulsory	Yes
IS2301	Engineering Mathematics III	3	Compulsory	Yes
IS2202	Engineering Mathematics IV	2	Compulsory	Yes
IS2261	Accounting for Engineers	2	Compulsory	Yes

Semester 4				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE2305	Structural Analysis I	3	Compulsory	Yes
CE2306	Hydraulic Engineering	3	Compulsory	Yes
CE2307	Soil Mechanics and Engineering Geology I	3	Compulsory	Yes
CE2208	Construction Materials	2	Compulsory	Yes
CE2209	Environmental Engineering	2	Compulsory	Yes
CE2210	Highway and Transportation Engineering	2	Compulsory	Yes
CE2211	Surveying II	2	Compulsory	Yes
IS2303	Engineering Mathematics V	3	Compulsory	Yes
IS2262	Economics and Management	2	Compulsory	Yes

Semester 5				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE3301	Structural Analysis II	3	Compulsory	Yes
CE3202	Design of Steel Structures	2	Compulsory	Yes
CE3203	Engineering Hydrology	2	Compulsory	Yes
CE3204	Soil Mechanics and Engineering Geology II	2	Compulsory	Yes
CE3205	Construction Planning and Cost Estimation	2	Compulsory	Yes
CE3251	Design of Timber Structures	2	Elective (2)	Yes
CE3261	Environmental Hydraulics	2		
CE3271	Traffic Engineering	2		
IS3261	Quantitative Methods in Management	2	Compulsory	No
IS3162	Intellectual Property	1	Compulsory	No
IS3171	Sri Lankan History and Culture	1	Elective (1)	No
IS3172	Ethnic Cohesion and Social Harmony	1		
IS3173/ IS3174	Sinhala/Tamil	1		

Semester 6				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE3306	Design of Concrete Structures I	3	Compulsory	Yes
CE3207	Hydraulic Design	2	Compulsory	Yes
CE3308	Geotechnical Engineering	3	Compulsory	Yes
CE3209	Construction Management	2	Compulsory	Yes
CE3110	Surveying Field Project	1	Compulsory	No
CE3252	Design of Masonry Structures	2	Elective (2)	Yes
CE3262	Environmental Geotechnics	2		
CE3272	Rail Transport Systems	2		
IS3263	Industrial Law	2	Compulsory	Yes
IS3151	Technical Writing	1	Compulsory	Yes
IS3175	Introduction to Philosophy	1	Elective (1)	No
IS3176	Scientific Method	1		
IS3177	Introduction to Psychology and Human Behaviour	1		

Industrial Training				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE3600	Industrial Training	6	Compulsory	No

Semester 7				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE4301	Design of Concrete Structures II	3	Compulsory	Yes
CE4202	Geotechnical Design	2	Compulsory	Yes
CE4603	Research Project	3	Compulsory	Yes
CE4404	Comprehensive Design Project	2	Compulsory	Yes
CE4351	Advanced Structural Analysis and Design I	3	Elective (6)	Yes
CE4352	Bridge Engineering	3		
CE4361	Water and Wastewater Engineering	3		
CE4362	Environmental Pollution Control	3		
CE4371	Highway Engineering Design	3		
CE4372	Transportation Planning and Economics	3		
CE4305	Highway and Transportation Engineering Design	3	Optional	No
CE4306	Water and Wastewater Treatment	3		
IS3171	Sri Lankan History and Culture	1	Elective (1)	No
IS3172	Ethnic Cohesion and Social Harmony	1		
IS3173/ IS3174	Sinhala/Tamil	1		

Semester 8				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
CE4603	Research Project	3	Compulsory	Yes
CE4404	Comprehensive Design Project	2	Compulsory	Yes
CE4353	Advanced Structural Analysis and Design II	3	Elective (10)	Yes
CE4254	Building Services	2		
CE4355	Construction Technology	3		
CE4361	Water and Wastewater Engineering	3		
CE4363	Limnology	3		
CE4365	Environmental Management	3		
CE4371	Highway Engineering Design	3		
CE4373	Traffic Management and Safety	3		
CE4264	Environmental Impact Assessment	2		
CE4374	Air and Water Transport Systems	3		
CE4256	Sustainable Design and Construction	2		
CE4305	Highway and Transportation Engineering Design	3	Optional	No
CE4306	Water and Wastewater Treatment	3		
IS4171	Ethics in Engineering	1	Compulsory	Yes
IS3175	Introduction to Philosophy	1	Elective (1)	No
IS3176	Scientific Method	1		
IS3177	Introduction to Psychology and Human Behaviour	1		

DEPARTMENT OF COMPUTER ENGINEERING

The Department of Computer Engineering offers courses to undergraduates from fundamentals to complex and advanced topics in modern computer engineering such as computer hardware and embedded system design, software engineering, bioinformatics, artificial intelligence, computer vision, robotics, parallel computing, networking, computer security, cloud computing, and database systems.

Minor speciality areas such as Data Management and High-Performance Computing have been introduced with the degree programme. Students who follow Data Management shall explore the topics of natural language processing, quality engineering, and machine learning, where it integrates current data science research and data-analytic techniques to find solutions in various domains. Students who follow High-Performance Computing shall study topics such as cloud computing and applications, advanced computer architecture, and GPU programming. Students will be able to gain experience in those areas by involving in multiple projects.

With the knowledge and skills gained, a Computer Engineering undergraduate will be provided with countless opportunities to work in the industry as a Computer Engineer, System Design Engineer, System Architect, Software Engineer, or can continue onto postgraduate studies and research.

Academic Staff

Dr. Udaya Wijenayake

B.Sc. (Hons)(UOC)
M.Sc. (KNU, Korea)
Ph.D. (KNU, Korea)

Head/Senior Lecturer
udayaw@sjp.ac.lk

Research interests:
Computer Vision, Image Processing, Machine Learning

Dr. Randima Dinalankara

B.Sc.Eng. (Hons) (UOM)
Ph.D. (University of Missouri)

Senior Lecturer
randima@sjp.ac.lk

Research interests:
Machine Learning, Image Processing

Dr. Krishanthmohan Ratnam

B.Sc.Eng. (Hons)(UOP)
Ph.D. (NUS)

Senior Lecturer
rkmohan@sjp.ac.lk

Research interests:
Optical Networks, Survivability Issues, Cloud Networking

Ms. Dilani Ranaweera

B.Sc. (Hons) (Wayamba)
M.Sc. (UCSC)

Lecturer
dilani.ranaweera@sjp.ac.lk

Research interests:
Artificial Intelligence, Cryptography, HumanComputer Interaction, Machine Learning, Natural Language Processing, Deep Learning

Mr. Ishara Dissanayake

B.Sc. (Hons) (Middlesex)
M.Sc. (Middlesex)
M.Phil. (Reading) (UOK)

Lecturer
isharadissanayake@sjp.ac.lk

Research interests:
Wireless Sensor Networks, Cyber Security, Artificial Intelligence

Ms. Akarshani Amarasinghe

B.Sc. (Hons) (UOC)
Ph.D. (Reading) (USJ)

Lecturer
akarshani.amarasinghe@sjp.ac.lk

Research interests:
Machine Learning, Artificial Intelligence, Rainforcement Learning

Mr. Lakshan Madhushanka

B.Sc. Eng. (Hons) (UOP)

Lecturer
lakshan@sjp.ac.lk

Research interests:
Computer Vision, Medical image processing, Robotics, Embedded systems

Ms. Sanuri Liyanaarachchi

B.Sc. Eng. (Hons) (USJ)

Lecturer
sanurihimalka@sjp.ac.lk

Research interests:
Machine Learning, Artificial Intelligence, Human Computer Interaction

Academic Support Staff

- Ms. Ishani Hapuarachchi, Instructor
- Ms. Gayesha Akwaththa, Instructor
- Ms. Ayeshma Nanayakkara, Instructor
- Mr. Thisal Somarathna, Instructor
- Ms. Navodya Rathnasekara, Instructor
- Ms. Laksana Sriharan, Instructor

Non-academic Staff

- Mr. Yasitha Randula, Technical Officer
- Ms. Shakila Silva, Management Assistant
- Mr. Nalaka Munasinghe, Lab Attendant
- Mr. Ishan Munasinghe, Lab Attendant
- Mr. Samantha Wijenayake, Works Aid

DEPARTMENT OF ELECTRICAL AND ELECTRONIC ENGINEERING

The Department of Electrical and Electronic Engineering offers a specialization that spans all scales of Electrical and Electronic Engineering. Courses offered by the department are designed and constantly improved with the intention that students shall gain knowledge and competence, starting from fundamentals of circuits, electronic signals, and signal processing through digital electronics and system-on-chips to the designs of large-scale power and telecommunication systems. The department offers two minors in Biomedical Engineering and Telecommunication Engineering. The students who follow the minor in Biomedical Engineering shall acquire state-of-the-art knowledge in applying engineering practices to medicine and healthcare. The minor in Telecommunication Engineering provides a comprehensive understanding of the design and implementation of telecommunication systems and provides a vision of upcoming next-generation networks.

The strong industry and, inter-faculty collaborations cater further opportunities to students in enhancing their knowledge and experience. Electrical and Electronics Engineering graduates are in high demand in the industry and academia, both locally and internationally, in a multitude of areas including electronic designing and manufacturing, power generation, industrial and power electronics, automation systems, computer programming, telecommunications, robotics, health care, manufacturing, and water and energy systems.

Academic Staff

Dr. Uditha Wijewardhana

B.Sc.Eng. (Hons) (Moratuwa)
M.Eng. (AIT)
Ph.D. (Oulu, Finland)

Head /Senior Lecturer
uditha@sjp.ac.lk

Research interests:
Wireless Communication, Network Optimization, Signal Processing

Dr. Nishan Dharmaweera

B.Eng. (Hons) (Monash)
Ph.D. (Monash))

Dean/ Former Head/Senior Lecturer
nishanmd@sjp.ac.lk

Research interests:
Optical Communication, Network Optimization

Dr. Charithri Yapa

B.Sc.Eng. (Hons) (Moratuwa)
M.Sc. (Manitoba, Canada)
PhD (USJ)

Senior Lecturer
charithriyapa@sjp.ac.lk

Research interests:
Power Systems Stability and Control, Power Systems Protection, Electrical Machines, Smart grids, Blockchain

Dr. Pasan Maduranga

BSc Eng Hons (AIT)
MSc.Eng (UoP)
PhD (IICUT)

Senior Lecturer
pasanm@sjp.ac.lk

Research interests:
Wireless communication, Radio-based localization and sensing, AI/ML-based communication systems design

Mr. Nimantha Madhushan

B.Sc.Eng. (Hons) (Ruhuna)
M.Phil. (USJ)

Lecturer
nimanthamk@sjp.ac.lk

Research interests:
Energy Monitoring, Power Systems, Industrial Automation, and Smart IoT Systems

Ms. Umaya Balagalla

B.Sc.Eng. (Hons) (KDU)
M.Phil. (USJ)

Lecturer
umayabalagalla@sjp.ac.lk

Research interests:
Medical Image/Video Processing, Biomechanics and Prosthetics, Medical Instrumentation

Ms. Narmada Ranaweera

B.Sc.Eng.(Hons) (Ruhuna)
M.Sc (Spain)

Lecturer
narmadaranaweera@sjp.ac.lk

Research interests:
Power systems, Micro Grids, Renewable Energy, Electrical Machines

Ms. Dhanushika Darshani

B.Sc.Eng.(Hons)(SEUSL)
Ph.D (Reading)

Lecturer
dhanushikadarshani@sjp.ac.lk

Research interests:
LiFi technologies, Digital Twins, 5G/6G Communication

Academic Supporting Staff

- Ms. Dinika Piyarathna – Temporary Demonstrator
- Ms. Mithara Sathmi – Temporary Demonstrator
- Ms. Senuri Keerthirathna – Temporary Demonstrator
- Ms. Chamodi Peiris – Temporary Demonstrator

Non-academic Staff

- Mr. Tharusha Nadeeranga - Technical Officer
- Mr. Roshan Mahakumbura - Technical Officer
- Mr. Lakshitha Mendis - Management Assistant
- Mr. Madushanka Priyanjith - Lab Attendant
- Mr. Romesh Lokubogahage - Lab Attendant
- Mr. Kasun Pushpakumara - Works Aid

DEPARTMENT OF MECHANICAL ENGINEERING

The courses offered by the Department of Mechanical Engineering are designed to give students the broad skill set required to pursue their goals, whether that is working as a Mechanical Engineer, Product Design Engineer, Energy Consultant, Entrepreneur, or continuing on to graduate study and research, throughout the globe. This specialization combines a broad-based education in the engineering sciences with a strong grounding in quantitative, problem solving, design, and communication skills. In the Department of Mechanical Engineering, students learn by doing, experiencing a level of understanding that only occurs through creative activities.

The department offers minors in areas of emerging sciences in Mechanical Engineering. Currently the minors in Mechatronics, Building Services and Manufacturing Engineering are offered by the department. The minor in Mechatronics Engineering covers the areas of robotics, vision systems, control systems, advanced automation, and micro mechatronics. The minor in Manufacturing Engineering covers the areas of production and operations management, advanced manufacturing systems and computer aided designing and manufacturing. Heating,ventilation, and air-conditioning (HVAC) systems, piped services and green building engineering are covered in the minor of Building Services. The curriculum of Mechanical Engineering ranges across the fundamentals of engineering mechanics, thermodynamics, energy engineering, building services, manufacturing, aerodynamics, and computer- based simulations with numerical approaches to designing products with a significant impact to society.

Academic Staff

Dr. Darshana Makavita

B.Sc.Eng. (Hons) (UOM)
M.Sc. (UOM)
Ph.D. (UTAS)

Head/Senior Lecturer
makavita@sjp.ac.lk

Research Interests:
Control Systems, Underwater Robotics, Engineering Education

Dr.Dulini Mudunkotuwa

B.Sc.Eng. (Hons) (UOM)
M.Eng. (UTokyo)
Ph.D. (UTokyo)

Senior Lecturer/Former Head
dulini@sjp.ac.lk

Research Interests:
Computational Fluid Dynamics, Numerical Weather Prediction, Data Assimilation

Dr. Geethal Siriwardana

B.Sc.Eng. (UOR)
M.Eng. (UOM)
Ph.D (USJ)

Senior Lecturer
geethal@sjp.ac.lk

Research Interests:
Computational Fluid Dynamics, Microfluidics, Nanofluids, Heat Transfer, MEMS Biomedical Engineering

Mr. Yasun Sampath

B.Sc.Eng.(Hons) (KDU)
Ph.D. (Reading) (USJ)

Lecturer
yasun@sjp.ac.lk

Research Interests:
Computational Fluid Dynamics, Automobile Engineering, Design, Manufacturing

Mr. Sayuru Bandara

B.Sc.Eng. (Hons) (UOM)
Ph.D (Reading) (USJ)

Lecturer
sayurudilan@sjp.ac.lk

Research Interests:
Mechatronics, Robotics, Automation

Mr. Anjan Rajapakse

B.Sc.Eng. (Hons) (USJ)
M.Phil (Reading) (USJ)

Lecturer
anjanrajapakse@sjp.ac.lk

Research Interests:
Microfluidics, Computational Fluid Dynamics, Manufacturing

Ms. Nilani Pathinayake

B.Sc.Eng. (UOR)
MBA in MoT (UOM)
MDA (UOK)
M.Phil. (Reading) (USJ)

Lecturer
pathinayakenilani@sjp.ac.lk

Research Interests:
Technology Management, Engineering Education, Data analytics, Machine learning

Mr. Kasun Sooriyapperuma

B.Sc.Eng. (Hons) (USJ)
M.Phil. (Reading) (USJ)

Lecturer
kasunchanuka@sjp.ac.lk

Research Interests:
Mechatronics, Machine learning, Robotics, Automation, Underwater robotics

Mr. Uvindu Thilakarathne

B.Sc.Eng. (Hons) (USJ)
M.Phil. (Reading) (USJ)

Lecturer
uvinduthilakarathne@sjp.ac.lk

Research Interests:
Green Hydrogen, Electrolysers, Fuel Cells, Renewable Energy, Thermodynamics, Sustainability

Academic Support Staff

Mr. Gayath Dayarathne, Temporary Assistant Lecturer
Ms. Bhagyani Randunuge, Temporary Instructor
Mr. Ashan Indusara, Temporary Instructor
Mr. Kodees Rajah, Temporary Instructor
Ms. Gajaanee Jeyakumar, Temporary Instructor
Mr. Maduranga Dilshan, Craft Demonstrator

Non-academic Staff

Ms. Tharaka Serasinghe, Technical Officer
Ms. Thilini Liyanage, Management Assistant
Mr. Pasan Palihena, Lab Attendant
Mr. Yashodha Hiran, Lab Attendant
Mr. Ruwan Kumara, Lab Attendant
Mr. Thisara Bandara, Works Aid

Curriculum of Mechanical Engineering

Semester 3				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME2301	Theory of Machines	3	Compulsory	Yes
ME2302	Fluid Dynamics	3	Compulsory	Yes
ME2303	Applied Thermodynamics I	3	Compulsory	Yes
ME2104	Sensors and Actuators	1	Compulsory	Yes
EE2191	Electrical Machines	1	Compulsory	Yes
IS2301	Engineering Mathematics III	3	Compulsory	Yes
IS2202	Engineering Mathematics IV	2	Compulsory	Yes
IS2261	Accounting for Engineers	2	Compulsory	Yes

Semester 4				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME2305	Strength of Materials I	3	Compulsory	Yes
ME2206	Analysis of Manufacturing Processes	2	Compulsory	Yes
ME2307	Design of Machine Elements	3	Compulsory	Yes
ME2208	Theory of Control Systems	2	Compulsory	Yes
ME2209	Fundamentals of Mechatronics	2	Compulsory	Yes
IS2303	Engineering Mathematics V	3	Compulsory	Yes
IS2262	Economics and Management	2	Compulsory	Yes

Semester 5				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME3201	Strength of Materials II	2	Compulsory	Yes
ME3202	Fluid Machinery	2	Compulsory	Yes
ME3203	Dynamics of Mechanical Systems	2	Compulsory	Yes
ME3205	Automobile Technology	2	Compulsory	Yes
ME3250	Manufacturing Systems	2	Electives (5)	Yes
ME3351	Production and Operations Management	3		
ME3352	HVAC System	3		
ME3253	Piped Services	2		
ME3354	Robotics and Vision Systems	3		
ME3255	Microcontrollers and Microprocessor Based Systems	2		
IS3201	Algorithms and Optimization Methods	2	Electives (2)	Yes
IS3202	Discrete Mathematics	2		
IS3203	Newtonian Mechanicsand Lagrangian Dynamics	2		
IS3204	Mathematical Modelling and Simulation	2		
IS3261	Quantitative Methodsin Management	2	Compulsory	No
IS3162	Intellectual Property	1	Compulsory	No
IS3171	Sri Lankan History and Culture	1	Electives (1)	No
IS3172	Ethnic Cohesion and Social Harmony	1		
IS3173/	Sinhala/Tamil	1		

Semester 6				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME3806	Comprehensive Mechanical Engineering Design	8	Compulsory	Yes
ME3207	Applied Thermodynamics II	2	Compulsory	Yes
ME3256	Product – Process Design	2	Electives (5)	Yes
ME3357	Group Project (Manufacturing)	3		
ME3258	Electrical Installation, Distribution and Lighting	2		
ME3359	Group Project (Building Services)	3		
ME3260	Advanced Automation	2		
ME3361	Mechatronics Project	3		
IS3205	Operations Research	2	Optional	No
IS3206	Advanced Probability and Statistical Analysis	2		
IS3207	Time Series and Stochastic Processes	2		
IS3208	Linear Models and Multivariate Statistics	2		
IS3263	Industrial Law	2	Compulsory	Yes
IS3151	Technical Writing	1	Compulsory	Yes
IS3264	Management for Engineers	2	Compulsory	Yes
IS3175	Introduction to Philosophy	1	Electives (1)	No
IS3176	Scientific Method	1		
IS3177	Introduction to Psychology and Human Behaviour	1		

Training				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME3600	Industrial Training	6	Compulsory	No

Semester 7				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME4001	Engineering Project	4	Compulsory	Yes
ME4102	Solid Mechanics	1	Compulsory	Yes
ME4404	Individual Research Project	4	Compulsory	Yes
ME4103	Advanced Fluid Dynamics	1	Compulsory	Yes
ME4262	Green Engineering and Environmental Compliance	2	Electives (5)	Yes
ME4363	Advanced Manufacturing Processes	3		
ME4364	Building Power Systems and Design	3		
ME4265	Energy Performance in Buildings	2		
ME4366	Computer-Based Measurement Systems	3		
ME4267	Graphical Programing and Virtual Instrumentation	2		
IS4161	Sustainability and Disaster Management	1	Compulsory	Yes
IS3171	Sri Lankan History and Culture	1	Electives (1)	No
IS3172	Ethnic Cohesion and Social Harmony	1		
IS3173/ IS3174	Sinhala/Tamil	1		

Semester 8				
Course Code	**Title**	**Credit Value**	**Category**	**Contributing to GPA**
ME4001	Engineering Project	6	Compulsory	Yes
ME4205	Heat Transfer	2	Compulsory	Yes
ME4106	Advanced Machine Dynamics	1	Compulsory	Yes
ME4369	Computer Aided Manufacturing	3	Electives (5)	Yes
ME4270	Industrial Automation	2		
ME4271	Building Acoustics	2		
ME4372	Facility and Building Environment Management	3		
ME4373	Smart Sensors, Actuators and Intelligent Systems	3		
ME4274	Introduction to Micro-mechatronics	2		
IS4171	Ethics in Engineering	1	Compulsory	Yes
IS3175	Introduction to Philosophy	1	Electives (1)	No
IS3176	Scientific Method	1		
IS3177	Introduction to Psychology and Human Behaviour	1		

DEPARTMENT OF INTERDICSIPLINARY STUDIES

The Department of Interdisciplinary Studies caters to all four specializations in which the faculty offers its degrees, via offering courses to the undergraduates that provide them with a plethora of competencies that a professional engineer is expected to possess.The department delivers a wide range of core engineering modules such as engineering mathematics, modeling and simulation, and measurements while also offering supplementary courses in the fields of communication, management, law and humanities. Further, the undergraduates are also provided with comprehensive knowledge on mathematical and statistical software, which are essential for solving practical problems in engineering.

The Department is also collaborating with the Faculty of Medicine, Faculty of Applied Science and Faculty of Humanities and Social Sciences in interdisciplinary research activities. As per the department's strategic direction, research and industry collaborations are initiated with the Department of Archeology, Central Cultural Fund and Sri Lanka Tourism Development Authority.

The department also offers an opportunity for students to initiate interdisciplinary research and promotes holistic and trans-boundary nature of problem solving that is highly expected from a modern day professional engineer. All of the courses are being offered by the department with the aim of developing and enhancing soft skills, managerial skills as well as leadership skills of the engineering undergraduates which will eventually aid them in their career advancement.

Dr. Shyam Kularathna

B.Sc.Eng. (Hons) (UOM), M.Sc. (UTokyo), Ph.D. (UTokyo), CIMA (UK)-Passed Finalist

Head/Senior Lecturer
shyamkularathna@sjp.ac.lk

Research interests:
Sustainability, Renewable Energy Systems, Agent-based modeling, Decision Science, Simulation of Human-Natural systems.

Dr. Nadika Jayasooriya

BSc. Eng (Hons) (UOM), Ph.D. (UOM), CIMA (UK)- Passed Finalist, CMILT

Senior Lecturer
nadikakeshan@gmail.com

Research interests:
Intelligent Transportation Systems, Transportation Engineering & Economics, Monitoring & Evaluation, Project Management, Sports Science

Mr. Gayantha Kodagoda

B.Sc. Eng. (Hons)(UOM), Ph.D (Reading) (USJ)

Lecturer
gmkodagoda@sjp.ac.lk

Research interests:
Numerical Modeling, Aerial manipulators, Underwater Drones, Soft Robotics, AR/VR

Ms. Sajini Wickramasinghe

B.A. (Hons) (UOK), LLB (Hons) (University of London), M.Phil. (Reading) (UOC)

Lecturer
sajinitharika@sjp.ac.lk

Research interests:
Sociolinguistics, Testing and Evaluation, Language Teaching Methodology

Mr. Manoj Samarakoon

B.Sc.Eng. (Hons) (USJ), M.Phil. (Reading) (USJ)

Lecturer
smmhsamarakoon@sjp.ac.lk

Research interests :
Intelligent Transportation Systems, Sustainable Transportation

Academic Support Staff

Mr. Thiumi Kaluarachchi, Temporary Instructor

Non-academic Staff

Mrs. Panchani Rathnayaka - Management Assistant

OFFICE OF THE DEAN

Dean is the academic and administrative head of the Faculty. The office of the Dean co-ordinates the academic and administrative activities of the Faculty. Each academic department is headed by a Head of Department who functions under the supervision of the Dean of the Faculty.

The main task of the office of the Dean is to provide the administrative mechanism and support required for coordinating the departments and the degree program. Also, it would be responsible for activities such as programs scheduling (specially the common programs of the first year), coordinating, academic advising, and maintaining student records.

The administration division of the faculty is headed by the Assistant Registrar under the supervision of the Dean. Similarly, the financial administration of the faculty is headed by the Assistant Bursar.

Staff of the Office of the Dean

Ms. Kumari Dassanayake
Senior Assistant Registrar

Mr. E.M. Gunarathne
Deputy Bursar

Dr. P.H.G.W.M. Maheepa, Medical Officer
Dr. Kasun Indunil Wijethilaka, Student Counselor
Mr. Randeep Handunwala, Assistant Network Manager
Ms. S.B.M.A. Semasinghe, Nursing Officer
Ms. P.K.W. Nuwanthika, Pharmacist
Ms. Gothami Kularathna, Senior Staff Management Assistant
Mr. Sanka Samaraweera, Technical Officer (ICT)
Mr. D T Thilakarathne, Works Superintendent
Ms. Deshani Kandekumbura, Management Assistant
Ms. Subashini Dissanayaka, Management Assistant
Ms. Prasadini Sooriyaarachchi, Management Assistant
Mr. Rukman Manjula, Electrician
Mr. Lakshman Jayasekara, Carpenter
Mr. Dananjaya Bandara, Works Aid
Mr. P.A.G.S.B.P. Arachchi, Works Aid

GENERAL INFORMATION AND FACILITIES

Student Record Book

Each student registered to follow the Degree Programme in Engineering will be issued with a Student Record Book (SRB) by the University. The SRB must be updated as the student progresses in the study programme. This book contains basic information of the student, such as his name, registration number, date of registration, contact information, and national identity card number.

The SRB is the property of the University and should not be abused, altered and tampered with or transferred to a third party. In the event of the loss of the SRB, a student should immediately report the loss to the Students Affairs Division/ Dean of the Faculty. In the event a duplicate SRB is to be issued, the student concerned will be liable to pay a surcharge and the cost of issuing the record book.

Student Identity Card

All students are provided with an Identity Card issued by the University. Each student is required to carry the Identity Card in person at all times within the University premises. Student should produce the Identity Card and prove his identity on being asked to do so by any Academic Staff member, security personnel or any other person authorized to do so by the Vice Chancellor. The Identity Card is the property of the University and should not be abused, altered and tampered with or transferred to a third party. In the event of the loss of the Identity Card, the student should immediately report the loss to the Students Affairs Division/ Dean of the Faculty. The student concerned will be liable to pay a surcharge and the cost of issuing a duplicate Identity Card.

By-laws on Student Discipline

Students are expected to behave responsibly without disrupting activities of the faculty. In case a student behaves otherwise, he/she may be subjected to disciplinary action by the University in accordance with the ‘By-laws on Student Discipline’. It is the declared policy of the University that there will be zero tolerance on “Ragging”. All students must be aware of the provisions in the “Prohibition of Ragging and Other Forms of Violence in Educational Institutions Act, No. 20 of 1998”.

Policy on Excusing from Academic Activities

A student may be excused from academic activities such as lectures, tutorials, practical work, and assignments due to the demise of a parent, a sibling, or spouse, or due to any valid medical reason. The student is responsible for submitting authentic evidence, within fourteen (14) days of the event due to which 'excuse' is being sought. The acceptability of such evidence would be determined by the Faculty.

Examination Procedure

The procedure a student should follow during examinations are described in the "Examination criteria, rules and regulations, examination irregularities, punishments applicable to candidates sitting first degrees, postgraduate degrees and external degrees conducted by the University" in Student Handbook of University of Sri Jayewardenepura. Violation of the provisions described in the document under reference, will result in the student being disciplinarily dealt with. All students are required to educate themselves about the examination procedure and the respective Rules and Regulations of the University of Sri Jayewardenepura.

Financial Assistance for Students

Mahapola Scholarships

Mahapola scholarships are awarded to selected students based on merit or need where they would receive financial assistance as determined by the Mahapola Trust Fund. Students are informed via public notice by the Welfare Division about the dates on which the instalments will be paid.

University Bursaries

Those who are not eligible for the Mahapola scholarship may apply for University Bursaries for financial assistance. Further information will be available with the Welfare Division of the University, who will receive and process the applications.

Library

The Library plays an important role in the university's education, supporting the three main pillars of the university: teaching, learning, and research. In the Main Library of the Sri Jayewardenepura University, there is a collection of more than two hundred thousand books, and hundreds of journals and electronic databases. The library has acquired a number of electronic resources such as e-books, e-journals, bibliographies and full text databases covering varieties of subject areas. All these databases and free sources are listed under e-resources in the library website.

Students from the Faculty of Engineering can use both the Main Library located within the main campus premises and the branch Faculty Library located within the Engineering Faculty premises.

Library of the Faculty of Engineering

The library of the Faculty of Engineering contains all the relevant textbooks in the four major disciplinary streams of Engineering along with supportive subject areas and other relevant reading materials. Students could also use the computers in the Faculty Library to access electronic databases and journals.

The usual opening hours of the library are from 8.15 am to 4.15 pm on weekdays. However, opening hours could be extended based on special requirements.

Industrial Training Division (ITD)

The Industrial Training Division (ITD) of the Faculty of Engineering, University of Sri Jayewardenepura is functioning directly under the Dean of the Faculty of Engineering and is located at the Faculty of Engineering, Lumbini Avenue, Ratmalana.

Students following the Bachelor of Science of Engineering Honours degree conducted by the Faculty of Engineering, University of Sri Jayewardenepura are required to undergo 24 weeks of industrial training in an industrial establishment as a compulsory requirement of the study programme.

The ITD in collaboration with the respective departments of the Faculty and the National Apprentice and Industrial Training Authority (NAITA) make arrangements to place the students in suitable establishments for idustrial training. The ITD is also responsible for managing and monitoring matters related to industrial training, coordinating with training providers, supervising the students during training and conducting assessments.

Computer Center

The students could access the Computer Center of the Faculty of Engineering, which is equipped with modern computers that are networked and provided with internet facilities. The Computer Centre is equipped to facilitate both the first-year common courses and some of the courses taken under specialized streams.

All students will be provided with a university student email account upon request. Free Wi-Fi is available within the faculty premises to all the students.

Canteen and Convenience Store

The faculty canteen provides cooked meals, hot/cold beverages, and other food items for the students at concession rates.

The Convenience Store offers products such as confectioneries, snacks, cold beverages, stationary items, printed media, and other daily commodities. A photocopy service is also available at the Convenience Store.

Hostel Facility

Separate hostel accommodation is available for both male and female students of the faculty. The priority is given to first year and fourth year students. Since accommodation in hostels is limited, please be noted that university authorities may not be able to provide accommodation to all applicants.

Mentors

Each student is assigned with an academic staff member as his/her mentor to support smooth engagement in academic activities. Students are encouraged to discuss the academic/personal issues that hinder his/her studies with the assigned mentor.

UNIVERSITY STUDENT COUNCIL, FACULTY UNION, AND SOCIETIES

As provided in the Universities Act No. 16 of 1978 and as amended, there exist University Student Council, Faculty Unions and other societies, which function under By-laws approved by the University. Further, there is a multitude of University approved learned societies, which will engage students in religious, educational and recreational activities.

IESL Student Chapter

IESL Student Chapter in the University of Sri Jayewardenepura is one of the most active student chapters which is established in collaboration with the IESL Young Members' Section. The objectives of the chapter are to disseminate knowledge, theory and practice of aspects related to the relevant discipline of engineering while professionally developing the students and encouraging them to be socially responsible people. The initial foundation for the Chapter was laid by Dr. Akila Subasinghe, the founding Dean of the Faculty and Dr. Chamitha de Alwis in 2017. The formal establishment of the IESL Student Chapter took place on 9th of September 2019 under the guidance of Prof. K.M.C. Konthesingha and Dr. G.N. Samarasekara.

Since the establishment, the chapter has been actively incorporating with the faculty undergraduates by supplementing them with educational, professional and soft skills development activities to help them to mold themselves into skilled engineers. The chapter's activities include seminars focusing on various disciplines of engineering and soft skill development, webinars with the cooperation of academics and industry experts, CSR projects, activities with the cooperation of IESL Sri Lanka, etc.

All the undergraduate and postgraduate students of the Faculty of Engineering are eligible to be members of the IESL Student Chapter. The students can take part in various activities and events such as IESL day, IESL Techno, Techno Games, IESL YMS Technical Conference, Inter University Debate Competition, Talk to School programs which are conducted in collaboration with the IESL, Sri Lanka.

IET Sri Lanka Network

The Institution of Engineering & Technology (IET) is one of the premier professional engineering organizations in Sri Lanka with headquarters in the UK. As a professional organization, IET plays a major role in the career development of engineering professionals throughout the world. IET global network has a membership of over 167,000 qualified engineers representing 150 countries over the world gaining support and recognition from the IET.

The IET Sri Lanka is the 9th local network in the South Asian region and it has been set up to serve the members of IET who live in Sri Lanka and to coordinate local activities. The local network's activities include evening forums, committee meetings, technical sessions, workshops, international conferences/symposiums, field visits, conducting radio/TV programs for public awareness, and younger member sessions. The IET has had members in Sri Lanka for over 80 years, with a current growing membership of over 1,000 engineers. IET Sri Lanka collaborates with the Institution of Engineers Sri Lanka (IESL), the Institute of Electrical and Electronics Engineers (IEEE), the British Computer Society (BCS), the Computer Society of Sri Lanka (CSSL), the Institute of Physics Sri Lanka (IPSL) and the engineering faculties of the universities in Sri Lanka for many activities in the electrical, electronics & telecommunications and computer engineering related fields.

IET Young Professionals

The IET Young Professionals Sri Lanka Network (IET YP SLN) consists of young IET members who are below the age of 35 and student members (undergraduates). The Young Woman Engineer (YWE) Award, which was initiated in 2017, is the key event of the YP SLN. Apart from that, several workshops, guest lectures, competitions, technical conferences, and field visits are organized for the younger members and undergraduate students. Annually, the Young Professional Technical Conference (YPTC) is organized for students to showcase their research works. IET YP SLN supports students to build a community as a society or student organization within the university by providing resources and funding for extracurricular events. Under the IET YP SLN, there are nine on-campus. The IET On-Campus at the University of Sri Jayewardenepura is the 8th one that was initiated in 2022, and in that short period too, it was awarded the Best IET On-Campus in that year.

IEEE Student Branch

IEEE, founded in 1884, stands as the world's largest technical professional society, born during a transformative era when electricity was reshaping society. Visionaries like Alexander Graham Bell and Thomas Edison were early contributors. In 1963, the merger of the American Institute of Electrical Engineers (AIEE) and the Institute of Radio Engineers (IRE) gave rise to IEEE, now connecting brilliant minds across diverse fields to advance science and technology for humanity's benefit.

The IEEE Student Branch at the University of Sri Jayewardenepura, part of IEEE Sri Lanka Section, was established in 2018 under the leadership of Mr. Dulan Dias. It aims to advance technology and professionalism, offering educational, technical, and professional advantages to its members. Notably, in 2022, the branch earned the IEEE Regional Exemplary Student Branch Award, led by current Chairperson Ms. Wasana Shalini and Branch Counselor Prof. Lasith Gunawardena.

Dedicated to fostering connections, our branch hosts various events to promote community and collaboration among members and with other branches. From the Annual General Meeting (AGM) to celebrating IEEE Day, our focus is on showcasing IEEE's importance, enticing new members, and encouraging active involvement. JamborIEEE camps unite multiple SBs, enhancing inter-branch connections, while initiatives like Road to Legacy guide first-year IT undergraduates. J'Pura Expedition 2024 featured tech talks by esteemed speakers, spanning AI to robotics, providing insights into cutting-edge technologies.

With an exciting event lineup ahead, we remain committed to our mission of fostering connections and creating memorable experiences. Join us on this journey of learning, growth, and community-building within the IEEE Student Branch.

Department Societies/ Clubs

Civil Engineering Society

The Civil Engineering Society (CES) is the main society within the Department of Civil Engineering that consists of the academic staff, undergraduate and postgraduate students. The society has been established with broader aims of promoting the civil engineering profession among students, enhancing the networking opportunities among the members and with the wider civil engineering community, promoting the professional development of students, and improving the student's life in the department. Apart, CES represents the department in inter-university, national, and international Level activities including IESL TECHNO exhibitions and design competitions. Intra university level spaghetti bridge competitions are organized by the CES annually. In addition, the society organizes guest lectures by inviting key personnel from the industry and research organizations. Apart from the activities related to the Civil Engineering field CES promote and encourage students to serve underprivileged sectors of the society.

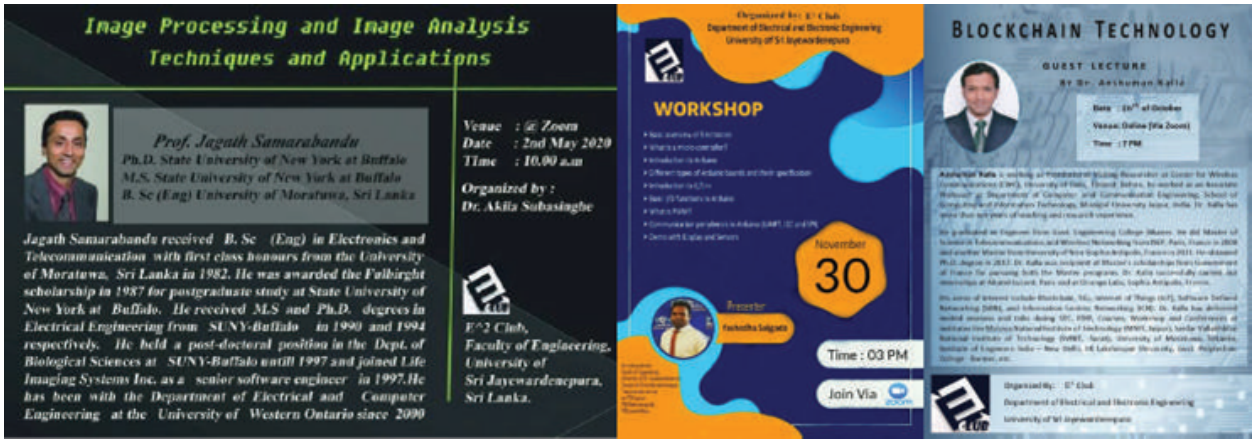
Computer Engineering Society

Computer Engineering Society (CENSOC) of the University of Sri Jayewardenepura was established as the main society of the Department of Computer Engineering. Membership of CENSOC is open to all undergraduate and postgraduate students and academic/ academic support/ technical staff attached to the Department of Computer Engineering. CENSOC aims to establish interaction among members and to promote professional interest in the field of Computer Engineering. The society explores and provides opportunities to fulfill its societal responsibilities to the community. Further, CENSOC will act as the social arm that identifies inherent capabilities of students and promote their leadership skills and professionalism.

E ^{2} CLUB

Electrical and Electronic Engineering Club (E^2 Club) of the University of Sri Jayewardenepura is the prestigious social arm of the Department of Electrical and Electronic Engineering. Membership of E^2 Club is open to all undergraduate/postgraduate students and members of the academic/academic support/technical staff attached to the Department of Electrical and Electronic Engineering.

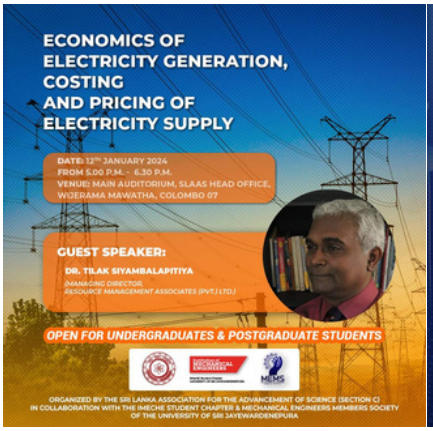
E^2 Club promotes professional interest in the area of Electrical and Electronic Engineering and establishes closer interactions among members. The club intend to inspire its members towards personal and societal developments as applicable to Electrical and Electronic Engineering. The activities of the E^2 Club include, but not limited to, organizing guest talks, presentations, field visits, workshops, competitions, carrier fairs, fun activities and charity projects.



IMechE - University of Sri Jayewardenepura Student Chapter

The Institution of Mechanical Engineers (IMechE) Student Chapter of the University of Sri Jayewardenepura, established in December 2019, is dedicated to promoting the significance of mechanical engineering through various innovative initiatives. In addition to organizing sessions featuring keynote speeches and engaging panel discussions to underscore the importance of the field, the chapter actively fosters hands-on learning experiences.

Annually, the chapter participates to the Speak Out for Engineers (SOFE) competition, providing a dynamic platform for students to showcase their talents and innovative ideas. Moreover, recognizing the importance of practical exposure, the chapter collaborates with industry experts to conduct specialized sessions covering key areas of the engineering profession. These sessions offer invaluable insights, practical skills, and networking opportunities, enriching the academic journey of its members and preparing them for the challenges of the professional world.



Mechanical Engineering Members Society

The Mechanical Engineering Members Society (MEMS) at the University of Sri Jayewardenepura (USJ) is dedicated to creating a collaborative community within the Department of Mechanical Engineering. MEMS aims to exchange experiences and knowledge among students, staff, and alumni, and enhance industrial collaborations for career guidance. The society organizes competitions, exhibitions, and events to showcase outstanding projects and skills, and seeks affiliations with other universities and research institutes. MEMS also contributes to professional development and research advancement through workshops and seminars. The society is committed to public outreach, uplifting the local community, and supporting department initiatives. Recent endeavors, such as hosting the Stream-Xtream computational fluid dynamics (CFD) competition at Techno 2023, demonstrate MEMS' dedication to enriching the academic experience for its members.

Nexus CLUB

The NEXUS Club of University of Sri Jayewardenepura was established in October 2023, with the aim of fostering unity, promoting team building, and nurturing leadership qualities among students.

It serves as a platform to enrich aesthetic appreciation by encouraging engagement in various creative pursuits such as music, dancing, drama, photography, and exploratory activities. Additionally, the club is dedicated to enhancing language and communication skills, fostering personality development, and facilitating interdisciplinary discussions related to engineering. NEXUS Club is open to all students across the four departments, and serves as a nexus, interconnecting individuals from diverse academic backgrounds and providing a supportive environment for personal and intellectual growth.

Join the Nexus Club in the journey of exploration, creativity, and collaboration as we strive to cultivate well-rounded individuals equipped with the skills and mindset to excel both academically and beyond.

Career Guidance Unit

The Career Guidance Unit of the University of Sri Jayewardenepura offers assistance to students in developing skills that would shape them to be productive in the local and international industry.

Career Guidance Cell - Faculty of Engineering (CGC-FoE)

Career Guidance Cell (CGC-FoE) of Faculty of Engineering was established under the purview of the Career Guidance Unit of the University of Sri Jayewardenepura. The CGC-FoE aims to support undergraduates in acquiring attributes and soft skills which can assist them in reaching standards matching the potential employer's requirements. The cell comprises of academic career advisors from each department and an experienced career guidance counselor as a career advisor.

http://eng.sjp.ac.lk/career-guidance-center/

Career Guidance Society - Faculty of Engineering (CGC-FoE)- Faculty of Engineering (CGC-FoE)

Career Guidance Society is the student club of the Career Guidance Cell of the Faculty of Engineering. Students can join the society upon registration, where they can get the exposure to various acitvities organized by the society, to enhance their knowledge,, and skills and develop the career path, from the early stages of the undargraduate studies. The society organizes several workshops, seminars and welfare programmes, having these objectives in mind. Further, as the main event of the society, a career fair, followed by a workshop series are organized anually, to connect employers with the undergraduate students, to facilitate with career opportunities.

Sports and Recreation

Sports and recreational activities of the university are managed by the Department of Physical Education. The Department of Physical Education provides an opportunity for students to take part in different recreational and sports activities and to develop personalities and qualities of teamwork through such participation. The students may also enjoy a game of carom and badminton within the faculty premises.

Medical Center & Counselling

The Engineering faculty medical center caters to the university community including students, staff and their families free of charge as the first contact and coordinate with Colombo South Teaching Hospital for secondary care. The medical center provides facilities for students and staff during the daytime. Other medical facilities such as, preventive health care (Dengue control program), ambulance facilities, dental facilities, etc. are provided by the main medical center of the University of Sri Jayewardenepura. The Counselling Center of the Faculty of Engineering offers counselling services to the students of the faculty to maintain their mental well-being.

http://eng.sjp.ac.lk/medical-center/

Student Affairs and Welfare

Welfare

To obtain advice for student welfare activities such as hostels, canteens, scholarships and bursaries, a welfare committee has been formed by the Faculty Board under the approval of the Senate. The following member act as Deputy Director of the student welfare committee of the faculty.

Dr. Shyam Kularathna shyamkularathna@sjp.ac.lk

Discipline

The following faculty member act as Deputy Proctor for student related disciplinary matters.

Dr. Shyam Kularathna shyamkularathna@sjp.ac.lk

STUDENT LIFE
